

DATABRICKS × HACK-NATION · DATA LEGEND · CHALLENGE 04

Facility Trust Desk

The trust layer for Indian healthcare.

Evidence over claims. Uncertainty stated. Humans in charge.

THE PROBLEM

An ICU is often **a claim** —
not a capability.

10,088

facility records across India

29,047

capability claims to verify

0

ground truth

WHAT WE BUILT

Every claim gets a verdict — with receipts.

“da Vinci Surgical System — 7 operating theatres”

EQUIPMENT FIELD · COUNTED AS INDEPENDENT EVIDENCE

“Plans to add five ICUs”

FILTERED OUT — INTENT IS NOT CAPABILITY

HONESTY AS A FEATURE

The app **doubts itself** — on purpose.

378

of our own ratings,
overturned by our own
validator

Our own validator disagrees with this rating.

A data desert is not a medical desert — and this app never
confuses the two.
